

# Recommendation Letter

May 31, 2025

To Whom It May Concern,

I am pleased to write this letter of recommendation for Nikita Ishchenko, with whom I had the pleasure of working on the game ZombieTrain. Throughout our collaboration, Nikita consistently demonstrated a level of dedication, initiative, and professionalism that is rare—even more so considering his young age.

From day one, Nikita impressed me with his proactive approach to problem-solving and his eagerness to contribute meaningfully to the project. He not only met expectations but frequently exceeded them, often anticipating challenges before they arose and offering thoughtful, efficient solutions. His ability to quickly grasp complex systems and integrate them seamlessly into our workflow was invaluable.

Nikita also brought a strong ethical foundation to his work. He was reliable, communicative, and deeply respectful of deadlines, teammates, and the creative process. His commitment to quality and his natural curiosity made him a key asset to our development team.

In short, Nikita Ishchenko is a remarkably capable and motivated individual with immense potential. I would not hesitate to work with him again and can confidently recommend him for any role or project he chooses to pursue.

Sincerely,

**Andrey Korubov**
